

**Kansas State Employee
Health Plan
Preferred Drug List
2016**

Effective 01/01/2016

For questions or additional information, access the State of Kansas website at <http://www.kdheks.gov/hcf/sehp> or call the **Kansas State Employees Prescription Drug Program** toll-free at 1-800-294-6324.

The Preferred Drug List is subject to change. To locate covered prescriptions online, access the State of Kansas website at <http://www.kdheks.gov/hcf/sehp> for the most current drug list.

What is a Preferred Drug List?

A Preferred Drug List is a list of safe and cost-effective drugs, chosen by a committee of physicians and pharmacists. Drug lists have been used in hospitals for many years to help ensure quality drug use. The Kansas State Employees Preferred Drug List will be continually revised to reflect the changing drug market.

Should I ask my physician to switch my current medications to a medication that is on the Preferred Drug List?

Many of your medications will already be on the Preferred Drug List. However, if you have a medication that is not, ask your physician to choose a similar Preferred Drug List product for you to use.

Should I use generics?

There are many medications on the market that do not come in generic form. For those drugs that do, your pharmacist should suggest safe and effective generic alternatives.

This document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

Boldface type indicates generic availability; boldface may not apply to every strength or dosage form under the listed generic name.
